SUMMARY

Passionate results driven management consultant in a Big 4 firm specializing in Operations management with expertise in cost reduction, quality management systems, digital transformation, process re-engineering, and new product development with an overall work experience of 5+ years

EXPERIENCE

PricewaterhouseCoopers | Chennai, India

Associate Consultant | 2022 - Present

- Developed a business development strategy with go-to market plan for the newly established PwC's Chennai Operations management division by assessing the market growth drivers and constraints
- Identified process re-engineering opportunities in the procurement division of a leading mining company
- Conducted a dipstick diagnostic assessment of a steel pipe manufacturer to map the as-is status and identify the pain points

Saint - Gobain | Chennai, India

Quality Manager | 2021-2022

- Managed a team of 9 direct subordinates and 180 employees to successfully increase compliance with SOPs and process improvements resulting in a reduction in customer claims by 81% (from 8700 PPM to 1575 PPM)
- Worked closely with fabricators throughout the world generating a yearly sale of 128 crore INR in 2021
- Youngest to be appointed as the Quality Manager of the division with a wide product range of glazed units, fire & bullet resistant glass processing, etc.
- Decision-making for critical maintenance-related, resource allocation, key processing parameters
- Managed new product developments for the site: color kitchen, skid-resistant glass, privacy glass for facades

Quality & Process Improvement Engineer | 2019-2020

- Spearheaded implementation of newly established standards for plant certification required for sales resulting in our ability to drive 48 crore INR of sales in 2021 in those regions
- Digitized our manual written quality tracking system in 6 months to create visibility into operational performance. Performed statistical analysis on data output to create insights and trends for management & customers
- Analyzed process requirements for more than a hundred buildings to align stakeholders across the consultants, fabricators, and manufacturing teams

Management Trainee | 2018

Rotational program for 6 months with 2 processing lines, focusing on improvement of Industrial efficiency, Health & Safety using Kaizen methodology

- Identified loopholes & rolled out process improvement plans generating 27% better production efficiency (OEE) in Offline Automotive Glass cutting
- Conducted an extensive analysis of the health condition of the workers & VOC levels in Automotive glass printing chambers. Calculated the airflow necessary for safe work by modeling the vents available and the current AHU blower rating
